

# On-Track Tutoring & Academy High School Summer Learning

## One-on-one tutoring:

Completely tailored to each student's academic needs, learning styles, and goals, one-on-one tutoring best allows students to learn at their own pace, and at a time and location that works for *them*. Top-notch academic coaches provide students with the tools to overcome weaknesses and to discover strengths.

## Small group instruction:

Students work in encouraging, non-competitive small class settings (max. 1:6 ratio) with an expert instructor to guide them through the course material, keep them on target with desired time lines, and to ensure concept understanding and subject mastery. We help students choose from various accredited correspondence course/independent study options, with consideration of individual goals and abilities.
